Hydroelectricity is the  
world's most widely used  
form of renewable energy

- National Trust, Cragside

“We have married  
the ancient with  
the modern in the  
service of our  
environment”

- Gloucester Cathedral

The hydro scheme has helped  
build community cohesion

- Halton Lune Hydro

My family live in an incredibly  
energy efficient home with  
all the modern conveniences

- Jurgen Huber

Money saved by reducing  
energy consumption can be  
used to help save lives at sea

- RNLI

Solar and wind power developed  
& owned by the local community  
helping address climate change

- Westmill Wind and Solar Co-ops

There's not a place  
on the island that  
hasn't directly or  
indirectly benefited  
from the  
community turbine
